Institution profile

Since it was created as a private university in 1959, the Technological Institute of Buenos Aires (ITBA, Instituto Tecnológico de Buenos Aires) has been known for its innovation, technology and academic excellence. The successful job performance of its more than 7,000 graduates is the best support for our academic proposal.

ITBA's undergraduate studies include Electrical Engineering, Electronic Engineering, Industrial Engineering, Information Systems Engineering, Mechanical Engineering, Naval Engineering, Oil Engineering, Chemical Engineering, Bioengineering, and Administration and Systems.

ITBA's masters include Project Assessment (ITBA-UCEMA), Strategic and Technological Direction (ITBA-EOI), Telecommunications Engineering, and Environmental Management.

Its specializations include Integrated Logistics Management, Oil and Natural Gas Economics, Electricity Market Administration, and Oil and Natural Gas Production.

ITBA has established partnerships with a number of universities around the world (see image).

Ministry of
Foreign Affairs and Worship
Argentine Republic
